

Choose Dover's Community Center

VOTE

June 12 & 21

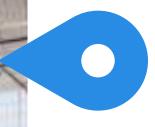

After 20 years of consideration, Dover voters have two options for a revitalized community center... an investment in a well-maintained, attractive, and flexible resource **for everyone** in the heart of town.

Meet old friends and make new in comfortable open spaces, a self-serve cafe, and a welcoming entryway.

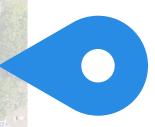

Keep your mind and body active in redesigned spaces purposefully built for multiple activities and recreation.

Bring your friends and community groups together for meetings, presentations, and events in brand new or like-new renovated spaces with modern technology, kitchen, and club storage.

Gain an energy-efficient building with AC and climate control. No more summer closures and over-heating rooms.

Enjoy a light and bright interior and a Dover-worthy, green exterior. Sit on the patio, walk the loop, play a hard-court activity. Get in and out with plentiful parking and safe access.

Investment: \$18M—\$53.00/year for an average household (\$1.25m).
The Choice of Renovation + New Additions OR a complete New Build is up to YOU. Failure to select one and failure to fund it will result in continued maintenance of the existing building with no enhancements. (approx \$8m)
