

Caryl Community Center Club

for Students grades 6-12 with an interest in Architecture, Construction.
Follow the project to build a new Community Center and get involved!

Caryl Community Center Club

Course Description

We are offering a rare opportunity for students to follow the Dover Community Center Project from conception through to completion. As a member of this club, you will follow the project step by step with professionals from the Project Management, Architecture, and Construction Team as well as other industries who will help us to complete this new center.

If you are interested in any of these areas or are hoping to work in them, this is an **invaluable and rare opportunity** to learn what goes into such a project, how each area affects others, connect to professionals in the industry and see the center itself take shape.

Examples of areas we will cover are:

- Public approval process: How Dover obtained approval from citizens
- Design and Construction Procurement
- Architecture
- Interior Design
- Landscaping
- Environmental Engineering
- Construction Administration
- Project Management

These will be done through a mixture of in person and Zoom workshops.

Please contact Ruth Townsend at carylfeedback@doverma.gov, if you have any questions.
